El.Br.(I). Public Works Deptt.

Submitted with reference to office note at p.186 ante.

2. With a view to ensure a continuous, steady and regular supply of energy to all the consumers within the areas served by the electy. undertakings in this Province the Electrical Engr. to Govt. was requested to report the condition of supply of all the undertakings and make suggestions for improvements in each case. The reports on 60 electy. undertakings received from the El. Engr. had been dealth with vide o.n. at p.157 to 160 ante. As suggested by the El. Engr. some electy. undertakings were asked to take steps to improve their position of supply, vide G.Ls. at pp.162 to 179 ante. Replies received from the undertakings shown in the *margin are dealth with separately in separate files opened with the copies of relevant papers from this file. The Electy. undertakings at Amalner, Athani, Rander and Junnar have not intimated the steps taken by them for ordering new sets and for conversion of D.C. to A.C. system as suggested in the G.Ls. at p.169, 170, 174 & 175 ante respectively. They may be requested to intimate to Govt. the steps taken by them in the matter.

* The Karad Electric Supply Company.
The Allied Elec. Agencies, Ltd., Satara.
The Amalgamated Ely. Coy.(Belgaum).
The Nasik-Devlali Elec. Supply Coy.
The Malegaon Ely. Coy.
The Mahableshwar Elec. Supply Coy.
The Nipani Elec. Supply Coy.
The Yeola Elec. Supply Coy.
TheUdwada Wapi El. Supply Company.
The Venkatesh Power Supply Coy.

A

3. The reports on the supply position of B.E.S. & T. and the Bombay Suburban Elec. Supply Coy. were not received. The El. Engr. was therefore expedited vide G.L. at p.185 ante. The reports since received from him will be found at pp.187-190 ante. The El. Engr. considers that both the undertakings will be able to satisfy the demands of the consumers. No action is therefore necy. on them.

4. Certain electy. undertakings were not asked to place orders for new set though they are needed to improve the supply position, as Grid supply is to be made available to those places and it is not considered advisable to ask the licensees concerned to incur heavy expenditure on purchase of new plants etc. vide para. 7 of the office note at p.158 ante. From the El.Commr.'s note it will be seen that Anand, Surat, Sanand, etc. places are likely to get grid supply within a year or two. But Byadgi will have to wait for 3/4 years more. Please see the El. Engr.'s report at p.135 ante. The El. Engr. may be requested U.O.to state whether he considers it necy. to ask the licensee to place orders for a new set.

5. What was aimed at in calling these reports was that the El. Engr. should be after the licensees and they should keep their position of supply in fairly satisfactory condition by carrying out the repairs to their machines etc. and by installing addl. sets where they are needed to cope up with the demand. The El. Engr. was asked to submit quarterly progress reports in respect of undertakings stating the progress made by each. For the reasons explained by him in his letter at p.161 ante, the El. Engr. however informed that the next progress report would be submitted in Sept. last. He has not yet submitted the reports. He may be expedited for the submission of reports.

B

6. .....

6. It may be stated here that after taking into consideration the position of elec. supply at several places, as revealed by the reports, and also the difficulties of the Electy. Undertakings in the manufacture and transport of materials, and a press note has been already issued enlightening the general public of the causes of unsatisfactory elec. supply and requesting them to tolerate the tempy. inconvenience due to shortage of elec. power and occasional interruptions to supply due to breakdown of machinery. A copy of the press note will be found at p.195 ante.

D.S.

The Undertakings at Bombay City, Bombay Suburbs, Bassein, Thana, Kalyan, Bhiwandi, Panvel, Lonavla and Poona receive supply from Tatas and are in a class by themselves. Their case is indirectly under consideration in the report of the Power Shortage Committee. They are mere 'agents' or distributors and not producers of elec. and should not be classed with others.

Action be taken on 'A' and 'B'; also the Elec. Engr. be asked separately as proposed in para. 4 of O.N. (This main file need not go to the Elec. Engr.) Individual cases should be dealt with on separate files.

THE DHARWAR ELECTRIC SUPPLY CO.LTD., DHARWAR.

The power house is equipped with three generating sets two rated for 65 KVA each and one rated for 175 KVA. The peak load on the station goes to 210 KWs. The present generating plant is just able to cope up with this peak load.

The plant is running under full load condition and thorough overhauling of the sets is needed, but it cannot be undertaken as there is no standby plant. Some spare parts are ordered out from the United Kingdom. There are about 400 pending requisitions with the Company.

The Company has placed an order for an additional set 140 KW engine has already received at site. It is learnt that alternator has been shipped and is expected within a couple of months. The Company has purchased one set of 365 KVA. from Porbundar and the same has also arrived at site. After the above sets are put into commission, it is considered that the plant should be able to satisfy all the demand
